

# HOW TO MAKE HUGE PROFITS ON EBAY IN 2020

PLUS The 3 Keys To  
Scaling UP

# How to Make Huge Profits On eBay In 2020

Thank you very much for signing up for this report.

We are very excited to present this information to you. Before you continue, please sign up for our LIVE training session:

## \* REGISTER FOR A LIVE TRAINING LAB \*

Before reading one more line of the book, make sure you register for one of our LIVE Training Labs where we're going to reveal...

- The shockingly simple system that generates huge numbers of sales (even if you make mistakes)... And how our students are using it to bring in ***thousands per week in profits***.
- The 3 mass traffic systems that are 100% free, and how complete newbies are able to scale to **5 figures in sales within 90 days**, from scratch.
- How "Mad Bill" found a 6-figure product in 3 minutes with a free tool that provided him with Billions of dollars of research, on a silver platter
- A secret 3x method that allows you to legally steal the winning products and copy off 7 figure winners (copy and paste simple)
- How to find 6 figure winning products in just 4 minutes

Follow this link to register for the live session...

**What we are about to share with you is unlike anything you will have seen before...**

And we will share our exact strategy with you in this report.

Our students are getting phenomenally good results:

- 85% of our students have taken action and made their first profits within their first month following our methods.
- The vast majority of our students then go on to make 30%+ growth in profits, month after month for several months in a row.
- Many of our students make it to a run rate of over 100k a year (that's about \$2k per week profit), within their first 90 days.
- Due to the situation in the world right now, and changes to eBay's system... *Now is the easiest time in the history to get started with profiting from*

*physical products on eBay.*

- We have also developed proprietary software that has enabled our students to dominate eBay, and bring in phenomenal profits.

Before we tell you how all this works, let's have a quick look at the backstory behind all this...

*(See on the next page)*

## **Brief Background About Selling Physical Products Online**

Over the years there have been several successful methods for physical product selling...

In the early 2010s, there was a huge leap into selling physical products on Amazon. It is a highly profitable model, and we and our students have brought in MILLIONS over the years from it.

However it has drawbacks...

1. There is a lot of inventory to order and keep in stock.
2. It is highly competitive and can often lead to ever decreasing margins as a result.
3. Sometimes competitors employ negative tactics to get your listings shut down (or hijacked) which can be dealt with but makes the model more stressful than it used to be.

People also have done well in eCommerce from dropshipping physical products.

We, and our students, have done well in this model also, and continue to do so.

However, it is getting more and more competitive and the advertising fees at Facebook and other places make it difficult to see a decent profit margin.

## **And that's why the eBay model is so powerful right now...**

The profit margins are high... And you don't need to pay for advertising until AFTER the sale has been made.

Plus you can still dropship the products, so you don't even pay for the product itself until AFTER the sale has been made.

## **Do you want to know the most exciting part?**

The whole thing only takes 24-48 hours to set up. And you can be making sales within your first week!

All this in just 3 simple steps...

We're going to reveal the 3-steps in a moment, and also explain why anyone, no matter what level experience they have, can make money with this too.

But for now, here are a few key points to keep in mind...

- You DON'T need to spend money on Facebook Ads, Google Ads, etc.
- You DON'T need to pay eBay any fees until AFTER the sale has been made.
- You DON'T need to drive 'traffic' ... As eBay drives that for you.  
You DON'T need to have your own branded products.
- You DON'T need to purchase any inventory up front.

## Meet “Mad Bill”

Bill Crosby is from Colorado, and has been testing and systematising several online selling methods over the years.

He's nicknamed 'Mad Bill' because he's a Mad Online Systems Scientist...

...Simply put, he likes to take things that are otherwise complicated, and turn them into SIMPLE Systems.

When he first heard about our 6 Figure eBay Method, he immediately thought of his 17 year old son...

...Because he wanted something that his son could get into and earn a decent living from.

His son was working for Walmart at the time, on \$12 per hour.

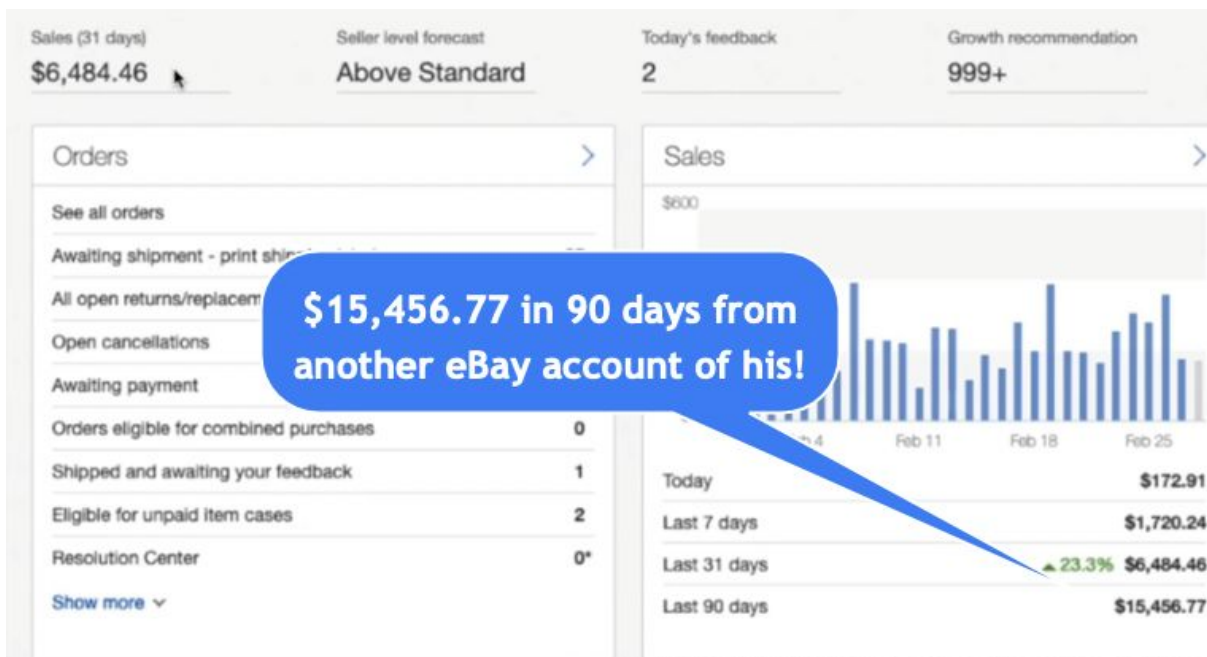

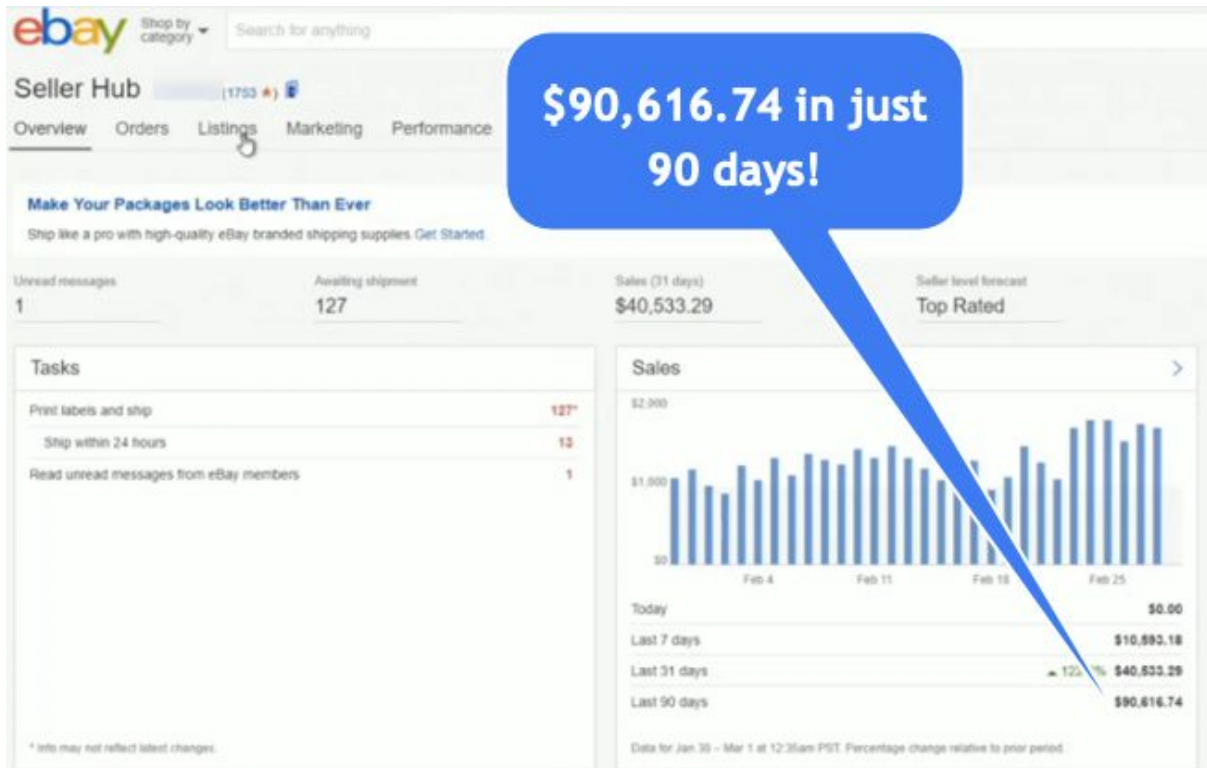

But before buying into this system and handing it off to his son, he decided to test it out for himself.

### **There were a few key facts that excited Bill by our system...**

1. That sales could be made in as little as 7 days, and that 85% of our members had made their first profits within their first 30 days.
2. That our students were scaling by 30% month after month.
3. That this system was very low cost to run. No advertising on Facebook and no purchasing inventory until AFTER the sale was made.

Within a short space of time Bill saw excellent results...

## **Bill was impressed... *But not satisfied***

If it had only been for himself, then Bill would have been jumping up and down at his own results...

...But Bill was looking for something his son could succeed with.

Bill knows his son very well. And he had a few reservations.

Not only does his son only have a few hours a week available to work on this... *But he also might not 'follow through' with it unless it's dead EASY.*

Bill is a systems guy, he loves turning complex processes into very simple systems.

And so he modified our process to make it even simpler.

*As you'll soon hear, we ended up partnering with Bill and he took over as the head of this program...*

...As this new simplified format was even better than our already successful formula.

**But first, lets look at how well Bill's son did.**

Bill's son's name is Alan, and he only had a few hours a week to work on this.

Yet, in his *very first week* he generated \$9,528 in sales... and made a **profit of \$3,811!**

All this from just a few hours of work.

## How did Alan achieve insane results so quickly?

Bill took our winning eBay system and modified it to make it EVEN better.

And made it stupid, simple to boot - so his lazy 17 year old can apply it with ease.

*This is why we decided to partner with Bill and recreate our program with his methods built into it.*

Bill knew that Alan does not have an entrepreneurial brain.

So he was desperate to find software that would serve Alan up with winning product ideas, like clockwork.

After a bit of testing of a few different methods, he developed a strategy that made use of Google's new software service...

...This new service is a game changer for anybody selling physical products online.

On a daily basis they update trending products from around the world.

These products form a non-stop supply of winning products that people are looking to buy right now!

When Bill saw that, his heart jumped a beat. This was the missing piece Alan so desperately needed to get traction.

## The Product?

---

DIY Swimming Pools...

- Google told him this is trending right now
- eBay told us we 100% could sell it with 40%+ profit margins
- Bingo

**But Bill Didn't Stop There. He Wanted PROOF Alan Would Make a Lot of Money Fast From His Product Selection**

He knows Alan.

He was scared that if it didn't work immediately for him, he would quit.

But how could he guarantee Alan would make significant sales fast?

## **The Solution: Reverse Engineer the Process and get eBay to Talk!**

Bill took a well known and free eBay tool and managed to get it to TELL HIM if a product was going to sell with high profit margins or not.

eBay has an amazing traffic-grabbing tool called promoted listings.

It allows eBay sellers to increase their sales by promoting their products on a pay-per-sell basis.

Meaning, you only pay ebay a (small) percentage after a sale has been made. eBay drives buyers to these listings as they take an additional % each time a sale is made.

Pretty amazing right?

Not for Bill!

He found away to get that application to reveal if he's going to make a huge profit or not...

...Before he even wasted a minute adding it into his account!

It's like a slot machine that whispers into your ear telling you it's programmed to pay out huge profits for the next 30 minutes.

Only eBay's system is even better, because you don't need to invest a penny in it to test it out!

The feature is available to millions of ebay sellers- but only Mad Bill discovered how this can be used to predict sales and make sure you get high profits!

*Reminder: Before reading one more line of the book, make sure you register for one of our LIVE Training Labs (see next page)...*

# **This is Totally Unique, Unconventional & Revolutionary!**

But the fact is, this is just the beginning.

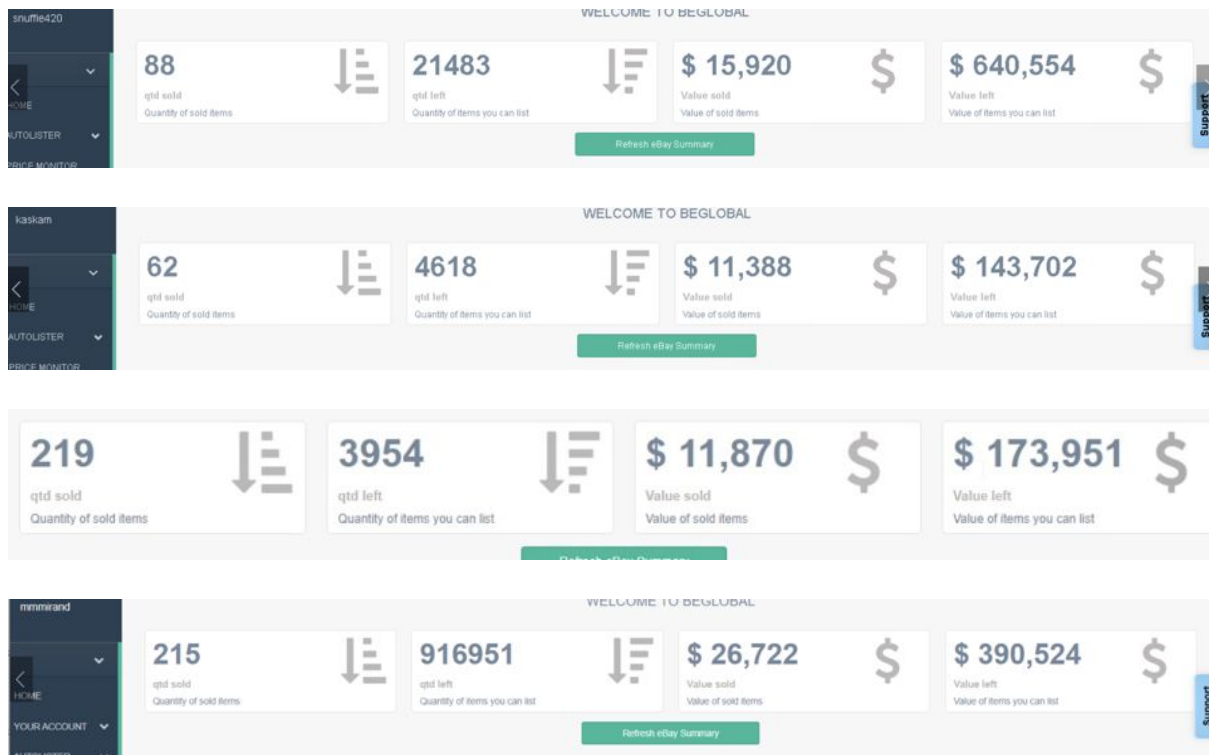

Not only were Bill and Alan able to scale their results with our 3 step eBay scaling process...

- That requires zero investment
- Zero marketing assets or skills
- And almost zero effort

Following the process, many of our other students have now scaled their results through the roof!

We have several students making 6 figures and more on eBay... *And many manage to scale to this point within their first 90 days!*

*Here are some example income screenshots sent in from our students recently (showing sales from the last 30 days!)...*

As you can see, the numbers are mind boggling!

*And it's all thanks to this simple 3 step (scale tactics) system...*

# 3 Tactics To Scale from \$0 to \$2k+ Per Week

## Scale Tactic #1: Add more products

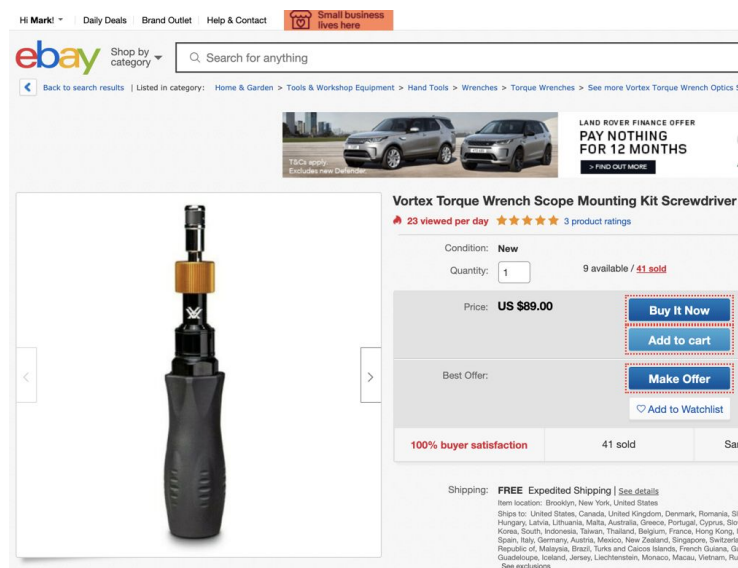

eBay loves newbies.

They provide you with a ton of buyer traffic for nothing.

But there is one type of newbies they love more than others...

Newbies who add new products consistently.

You don't just get more traffic when you do that, it grows exponentially!

## Scale Tactic #2: OPS (Solving the Copywriting issue)

eBay is a marketplace with 180m buyers walking around with credit card and PayPal account in hand, waiting to buy something.

What if there was a way to get your products in front of those buyers when they search for your product in the system?

*This process is called ranking.*

Optimizing titles, descriptions...to make sure they will get you to show up higher in the search results than other sellers.

It takes loads of time to learn and requires you to understand copywriting.

Millions of sellers are already applying these tactics.

Not exactly much fun for a newbie, right?

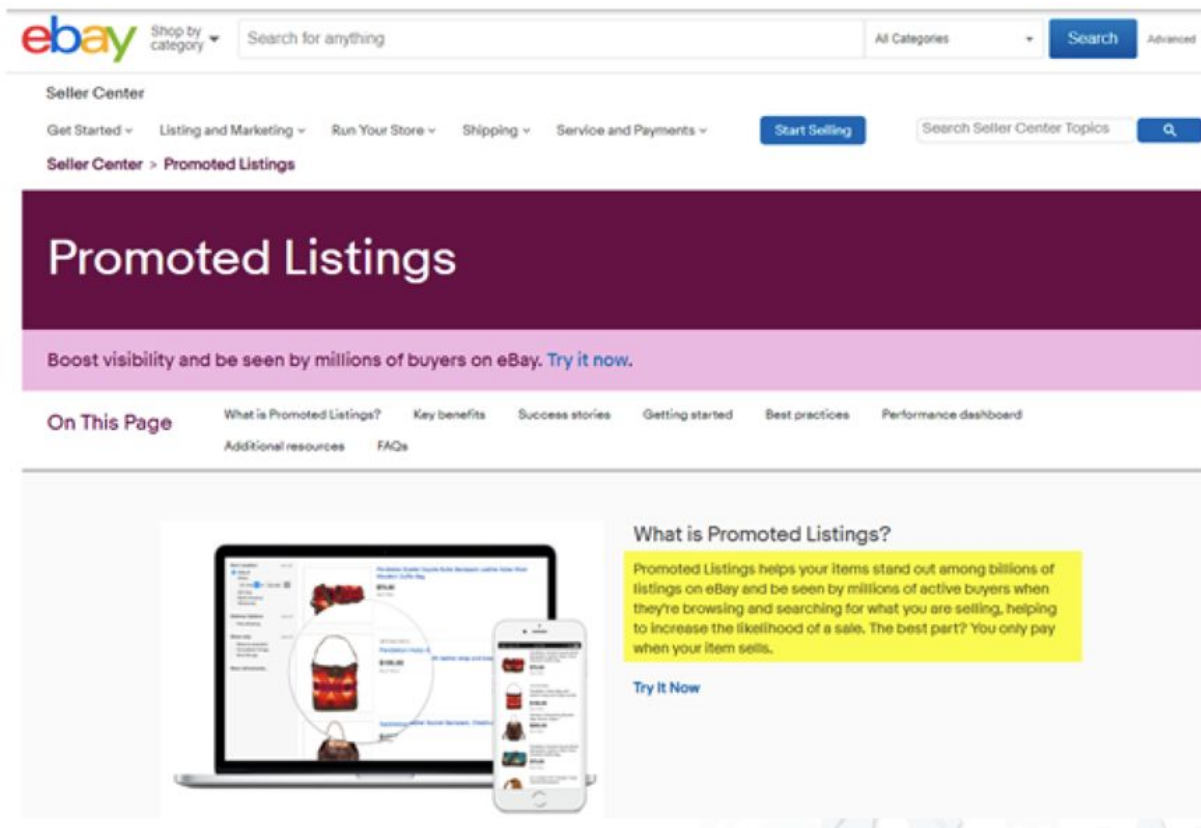

Well we resolved this issue by showing you...

**...How to grab the very best copy from other peoples' stuff (OPS) selling similar items.**

Yes, you will be able to copy their killer, high converting, eBay search algorithm loving descriptions!...

Whilst 2-3x your numbers almost immediately!

## Scale Tactic #3: Promoted listings (the Mother of all scaling without cost)

This tactic is Fun.

You already know you have a winning product.

You've already begun to scale and make significant profits.

Now it's time to get ebay to send you more traffic (for nothing) that you ever imagined possible.

You simply tell eBay how much you are willing to pay them for a sale (easy when your profits are 40%+)...

And eBay will send you unstoppable traffic and sales!

Alan, went from a \$12/hour Walmart Job to \$9528 in sales and \$3811 in profits in 8 short days!

Alan then had the shock of his life when eBay got concerned

Yes, eBay could not understand the amount of sales he had created from scratch and wanted to limit his account.

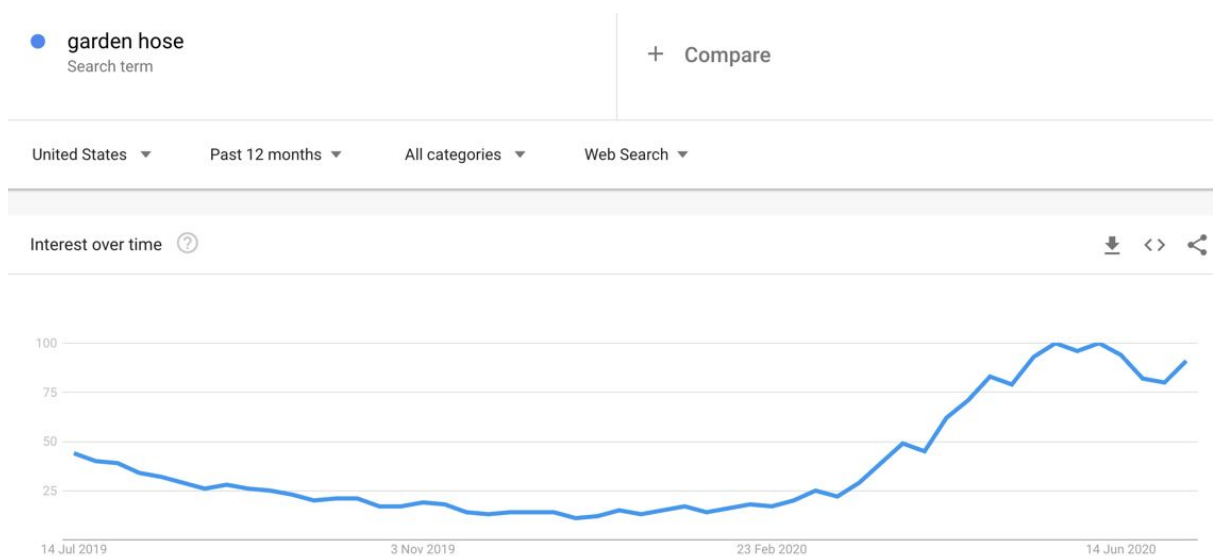

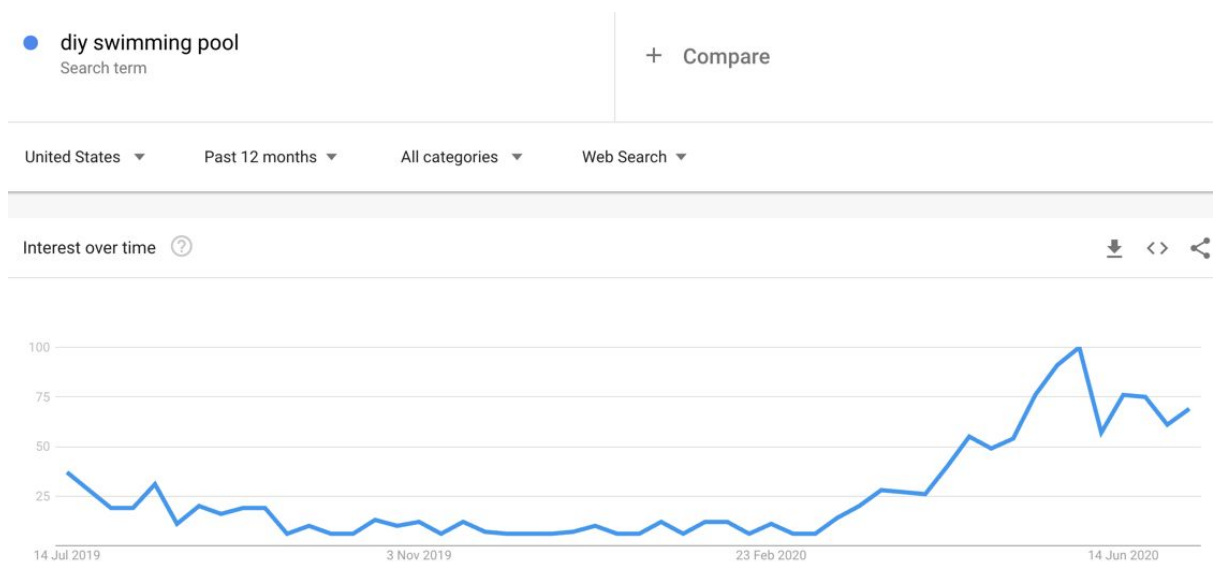

2 days later after Alan explained his system, the issue was resolved, but there is a big lesson here.

When armed with something this simple and this powerful, you need to be careful not to scale too fast.

In fact this is the biggest lesson we teach our other members who are right now repeating Alan's success.

Newbies hitting these sorts of numbers sometimes have a tendency to want to add tens of winning products/day.

Whilst it's so easy to do thanks to Google's new tool, that would be a mistake.

Better to scale, one product at a time (like Alan is now doing) adding thousands in extra profit each month and not raising a red flag!

## Can You Do This?

The big truth is, not everyone can emulate Alan's success.

To succeed you need the following:

- An ability to follow a system for dummies without overthinking or thinking you know better
- A desire to invest several hours/week to get your initial breakthrough (Bill thinks anyone who follows this can hit \$200 in a single day in profit within 30 days, and that's being conservative)

Think you fit the bill (no pun intended!) then make sure to join us for our special Workshop with Bill.
